

BIG KNOB™

MONITOR CONTROLLER | INTERFACES

The Big Knob Series offers studios of any size the professional source/monitor selection and precise level control that made the original Big Knob such a popular choice. Plus, with the addition of high-resolution Onyx™ USB recording and playback, studios get a powerful, hybrid solution that is truly greater than the sum of its parts.

FEATURES

PROFESSIONAL SOURCE AND MONITOR SELECTION

The Mackie Big Knob has proven itself for more than a decade as the go-to monitor control solution for project and professional studios. The Big Knob family takes the best of this classic workflow, delivering the right solution for the modern studio.

FLEXIBLE HIGH-RES USB RECORDING/PLAYBACK

Both the Big Knob Studio and Big Knob Studio+ offer high-resolution USB interfacing, featuring dual Onyx™ mic preamps, delivering an ultra-wide 60 dB of gain range and award-winning sound quality. With resolution up to 192 kHz, you can trust that your recordings and playback from your DAW are always high quality.

COMPREHENSIVE FEATURE SET

Big Knob controllers/interfaces deliver features like dual headphone outs, a dedicated amp-driven studio output and flexible I/O options. Easily integrated into any application, Big Knob controllers/interfaces are truly the nerve center of any studio.
