

THUMP SUB GO

BATTERY-POWERED PORTABLE SUBWOOFER

DROP THE BASS
(ANYPLACE)

Mackie ThumpSub GO is a battery-powered portable subwoofer with a slim, ergonomic design that lets you pull off those iconic bass drops anywhere you GO—without needing a power outlet. Get up to 12 hours of battery life* with two battery compartments, letting you hot swap batteries without losing power. Connect portable PA speakers, like the Mackie Thump GO battery-powered loudspeaker, for a complete stereo or zone PA system with deep bass. Stream wirelessly through the whole system via Bluetooth®. Carry the bass like a briefcase.

*(*One battery included for up to 6 hours battery life. Optional second battery sold separately.)*

SWAPPABLE, RECHARGEABLE BATTERY

- Two hot-swappable battery compartments for up to 12 hours of continuous bass thumping. (One GB-200 battery included for up to 6 hours. Optional second battery sold separately.)

SLIM DESIGN

- The portable subwoofer design means you can place ThumpSub GO horizontally or vertically, and you can carry the bass like a briefcase with the built-in ergonomic handle.

CONNECTIVITY

- Connect two loudspeakers to ThumpSub GO for a complete stereo or zone PA system with floor-shaking bass. Stream music wirelessly through the whole system with Bluetooth®.

THUMP GO

- ThumpSub GO is optimized for the Thump GO battery-powered loudspeaker, but it works perfectly with Mackie ShowBox, or any portable powered PA speaker.
